

Beyond Directional Accuracy: A Reproducible Audit of Daily Cryptocurrency Forecasts and Trading Costs

Separate author title page for The Journal of Finance and Data Science

Author details—to be supplied by the authors

Final names and author order: [COMPLETE].

Affiliations with full postal addresses: [COMPLETE].

Corresponding author, email and postal address: [COMPLETE].

ORCID identifiers, where available: [COMPLETE].

Author contributions

Assign accurate CRediT roles to the actual authors: [COMPLETE]. Do not list an AI system as an author. Do not assign contributions without each author's confirmation.

Funding and competing interests

Funding sources, grant numbers, and funder roles: [COMPLETE].

Financial and nonfinancial competing interests: [COMPLETE].

Author confirmations required before submission

Confirm the manuscript and code have been independently reviewed; all authors approve submission; author order is agreed; prior publication and simultaneous-submission status are accurately declared; data and code redistribution are permitted; and AI assistance is truthfully disclosed under the journal's policy. This file deliberately contains unresolved fields.

No author identity, affiliation, consent, funding status, or conflict-of-interest declaration has been invented. Upload separately from the anonymized manuscript after completion.
